

Peer review

Interreg
Europe

Co-funded by
the European Union

A fast track to policy solutions

The Interreg Europe Policy Learning Platform provides a **peer review** service. **Public authorities** can get tailored policy advice to solve a specific **policy challenge**. You can request a peer review at **any time** and on **any topic** covered by the Cohesion policy.

A peer review is a **two-day meeting** with the **Platform experts**, your **local stakeholders** and **selected policy practitioners** from around Europe – your peers. During the meeting, you explain your policy challenges and discuss transferable **good practices**. You team up with peers and experts to jointly prepare **hands-on recommendations** and a **roadmap** adapted to your policy context.

The Platform **facilitates the organisation**, **moderates the content** and **covers the costs** of the peer review. This service aims to provide you with **tailored policy solutions** to your needs. It is an excellent **tool for newcomers** external to the Interreg Europe projects to experience the **benefits of interregional cooperation!**
